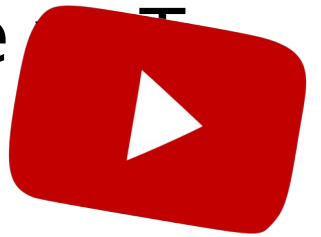
NOT

- Youtube rewind The videos were criticized for featuring obscure or unpopular YouTubers; the inclusion of unpopular or outdated trends; and the exclusion of many prominent YouTubers of the year, such as Shane Dawson, MrBeast, and PewDiePie, as well as popular rivalries such as KSI vs Logan Paul and PewDiePie [illegible]T Series. And it was disliked so much youtuber CANCELLED 2021



Just bad update

- the pay of youtube shorts hey yeah, I know it's not an update but there wasn’t any other bad updates I could find so yeah YouTubers can earn money from a cut of ad revenue on both their shorts and long-form videos. YouTube income per 1,000 views was between $1.61 and $29.30 for long-form videos, creators said. Shorts made much less money, with creators earning $0.04 to $0.06 per 1,000 vi Sc ng in a catchy tune but Im not doing that) if ya wann make money don’t do youtube shorts

That’s it yeah for this bit
